GENERAL INSTRUCTIONS

Submission Deadline

All assignments will be submitted on Monday, 11th September 2023.

Questions

Students should note sections for each subject and read carefully:

- Individual subject content in focus.
- Questions and responses required.

Rubrics

Students should critically read rubrics as guides to know how scores are weighed.

Teachers' Contact Details

We have included your teacher's contact information for any questions or inquiries you may have. Do not hesitate to reach out and get the support you need to excel in your studies.

MATHEMATICS & VISUAL ARTS

In art, mathematics is not always visible, unless you are looking for it. But there is much symmetry, geometry, and measurement involved in creating beautiful art. Also, many artists take advantage of mathematical findings, such as the golden ratio, to make their artwork realistic and beautiful. Angles and perspectives can also be described using math. Perhaps math and art are quite intricately linked. ~ *M.C. Escher*

Math-Art Project (Robot Drawing)

Possible Mathematics

1. Forms and Shapes
2. Measurements
3. Compass usage including radius

Possible Art

1. Forms and shapes
2. Principles of Arts
