CIVIC EDUCATION & SOCIAL STUDIES

INSTRUCTION: Do the assignment in a Word document and send through email.

Preamble:

Nigeria, the largest democracy in Africa, conducted its Presidential and National Assembly elections on February 25, 2023, and Governor and State Assembly elections on March 18, 2023. However, the outcome of the elections became highly controversial, resulting in outrage among the opposition and the general population. Eighteen political parties presented candidates for the presidential elections. Of the 18, three were the major contenders: Bola Ahmed Tinubu, the candidate of All Progressives Congress (APC), who scored 8,794,726 votes and won 12 states; Atiku Abubakar, candidate of the People’s Democratic Party (PDP), who scored 6,984,520 votes and won 12 states; and Peter Gregory Obi, candidate of the Labor Party (LP), who scored 6,101,533 votes and won 11 states plus the Federal Capital Territory (FCT). Citing many electoral malpractices, the opposition parties have disputed the results since INEC announced the winner. An upsurge of Obi supporters called the “Obedients”—and Atiku Abubakar’s supporters known as the “Atikulates” have challenged the results in court.

Now, answer these questions

1. Explain FIVE forms of electoral malpractices that reportedly characterized the 2023 general elections in Nigeria. [5]
2. Explain FIVE reasons for recurring electoral malpractices in Nigeria. [5]
3. State FIVE effects of electoral malpractices on the Nigerian political system. [5]
4. Suggest FIVE solutions to reduce electoral malpractices in Nigeria. [5]
